

Clicking here will allow parents to edit their child's information. When they get to the "edit" screen, these options change to say "Contact Information" and "Personal Information". Name, phone number and email addresses can be updated on the "Contact Information" tab. Allergies, date of birth, and baptism date are edited in the "Personal Information" tab.

Clicking on "Groups" from this profile page will allow a parent to see if their child is on the roster for their anticipated graduation year. If they are not, they should submit a request, or send Jen an email at JenK@sjlserve.org

If they have not uploaded a picture to their family's profile pages, they will see this instead of a photo. Clicking on "Add an Individual Photo" will allow them to upload a photo from anywhere on their computer. Clicking on the 2nd circle will allow them to upload a family photo which will sync to each profile page.
